Dear Brothers and Sisters in Christ Jesus,

Greetings in His name,

In these last days we are living in the gleaning time of the harvest of souls. It seems that the first fruits and the main harvest is past and we are in the gleaning stage. Yet there are so many more people on the earth. The gospel is so widely preached, the number is far greater than we realize. And there is no reason to slack off in our testimony for Him. Often we are slow to broach the matter in conversations because we fear what they may say or think. But when we do speak for Him the response is seldom what we imagine..

The Lord will have a witness even if the stones must cry out.

I have had cataract surgery on my right eye. It has swollen longer than usual. Also I have had a cold and that seems to aggravate it. I have not been able to read much.

The change in my color perception has been as all my friends said it would be. The white is whiter, green is greener, I never realize I was missing so much.

There is a spiritual lesson here for me. Over time we do not perceive the dimness coming on. We begin to accept this dimness as all the light there is and expect no better. No wonder the word says we should pray the eyes of our understanding should be enlightened. Or buy eye salve as the Laodiceans were ask to do. So it's a challenge not to accept the boring normal as all the Lord has for us. It seems to me that repentance is a good cataract operation for the eyes of our hearts.

Because of my eye condition and cold I have not preached for the last two weeks. For any preacher its like a fire that is shut up in the bones.

I appreciate your prayers on my behalf.

Thanks very much for the Sept. offering of \$150.00

Sincerely in Christ Jesus,

Edgar D. Sullivan
