Dear Brothers and Sisters in Christ Jesus,

Greetings in His name.

In this season acclaimed for thanksgiving we as the Lords people have much to be thankful for. Especially our freedom to worship the Lord according to our conscience.

These days that right is being assaulted by atheistic groups. Our constitution was not written to exclude God from'-It was written that we should not have a state sponsored church as other nations had at that tints,. . /'@, @,. -^@@- QU^ ((t/^S ')

I am thankful that our nation has given so much to other nations.

The churches of our nation have given more men as missionaries, more money than any other in history.

Any nation that does not accept the presence of gospel preaching churches is in decline.

When Israel and later Judah went into national idolatry they ceased to be a viable witness of the true God.. Captivity and dispersion was the result.

We have had a sad ordeal here. My wife's sister Laveme has had several operations for cancer of the throat. Then she had a stroke and was in intensive care for several weeks. When all signs of consciousness were gone they removed her from the life support machines. She lasted five days. She was a practicing Christian . She had a good reputation. In all the ordeal she did not complain or charge God foolishly.

Her husband is in the last stages of emphysema. It has been hard for him. For awhile we thought he might give in to discouragement. But he seems to have the victory in the Lord.

I am thankful that I am enabled to continue preaching.

I am grateful for your prayers for me.
