**Were home and looking forward to the New Year!**

I last reported that we were heading for Florida to help with some of the hurricane damage caused from several hurricanes they had this past summer. We were blessed to be able to work with our sister church in Wauchula Florida. Pastor Jim Harris and the whole church were a tremendous blessing to our family. We were able to help 3 churches and several church members who received hurricane damage. It's hard to describe all of the damage we saw while there but the area was hit extremely hard, so much so, that it will be several years before Florida recovers from all of the damage. We could have stayed several more months and would have felt at home because they all made us feel like family, but we needed to get home to retrieve classes from our recorder that records the girls home school stuff and we have several churches in California still in the middle of building programs that need our help too.

### **David Ennis needs your prayers!**

David and his family left California with us and we worked together until we left in December. David and his family planned to stay in Florida and attend the mission conference in January. He and Brother Harris were helping a church member put on a new roof this last week and the piece of metal roofing they were both standing on came loose and they both hit the ground hard. Brother Harris injured his back and David broke his ankle in three places and dislocated it. He is having surgery today to install a plate on the bone to keep it all together while it heals. He'll probably be down for at least three months. Please keep him and his family in your prayers! Construction can be a very dangerous job and we are fortunate that they were not injured worst.

### **Work day scheduled in Woodbridge**

**Saturday January 15<sup>th</sup>**- breakfast at 7am, than we'll start working at 8am framing & setting roof joist.

I plan to be in California until our trip to Romania this year which we still haven't to set a date for. We'll need others to go and help work on the church camp there too. I should have a better idea about the dates by next month. Please call me on my cell phone if you'd like to find out where I am or where I'll be if you'd like to help. 559-681-0908
