April 10<sup>th</sup>, 2005

This past week I've been recuperating from an injury I received from landing on the ground at a higher than recommended rate of speed. I was nailing up a block in the trusses at Woodbridge and my ladder ran away from me. It's not an experience that I highly recommend; I received no broken bones but plenty of bruises and swelling. I'm on the mend and hope to be back to work this next week. I've been working at Clovis and Woodbridge this past month and attended our state association in Visalia. Clovis should be in the new downstairs portion of their building this month and the upstairs is coming along very well. It is almost ready for sheetrock. Woodbridge is still framing, but they are ready for roofing. There is still a lot of framing to be done; soffits around the exterior of the building and an interior soffit for the A/C.

We have a work week planed in Spokane, WA. the 25<sup>th</sup>-30<sup>th</sup> this month. We'll be leaving the week before and will be stopping to look at two other churches that need help in the future. I'll be spending the next couple of days finishing my taxes and hopefully I'll be fully recovered from my injuries this week.

Please keep the upcoming Romania trip in your prayers, we have four men that want to go, but things are not settled with some having to get time off work and finances are hindering us as well. I know that sometimes God allows these things to strengthen our faith.

Keep David Ennis in your prayers as he continues to heal from his broken ankle, he'll be home this week and they'll be working on the remodeling of the old Sanctuary in Martinez.

Please keep us in your prayers as we do this work for The Lord and Our sisters Churches. As you can see with David's recent injury and now mine, this kind of work can be dangerous. We trust in the Lord to keep us and covet your prayers too!
