

Chapel Builder's December 2006

Our family wants to wish each of you a Merry Christmas and a very Blessed New Year. Thank you so much for your support of the Chapel Builders ministry, and our family. Your support, love and prayers make this ministry possible. We are so grateful that the Lord chose each of you to participate in this ministry with us.

This last year has been very busy and different for us as we are living full time in the trailer, and trying to build a house as well as minister to all the churches and missionaries with building needs. We just praise the Lord for all He's done for us this year; especially for the grace to handle all the challenges we've had.

December I spent working on our house as well as I worked a few days in Redding on my dad's house. Keep my parents in your prayers as they labor to build their house and for their health.

We've been planning for over a year now to work with Richard Carter at Lighthouse MBC in Queen Creek, AZ to assist them with their building needs. We are planning to be there January 25 – February 10. They have a metal building and we will be installing walls, electrical, sheet rock, and T-Bar ceilings for them. If any are in the area and would like to help, we'd love to have you.

Pray for our daughter Stevie. She's now in college and won't be traveling with us. This is a new adjustment for all of us. She's staying with friends while we are gone. Pray for her safety and ours.

Again, we can't thank each of you enough for your support, love and prayers. Pray that we continue to heed the Lord as we serve Him in this ministry, for our health and safety, and that we give all the honor and glory to Him, because He alone makes all things possible. God Bless each of you this next year.
